

I am so excited you are looking at ways to take a more natural approach to your health, fitness, and self-care. This guide will give you a preview of how you can live a more empowered & thriving life – and how doTERRA is a key tool to support that goal!

Who is doTERRA?

doTERRA is the largest essential oil distributor in the world. We empower people (like you!) to use a natural approach in their everyday life. People turn to doTERRA when:

- Their current approach to health is not achieving the results it was supposed to
- They are tired of using chemical concoctions for literally *everything*
- They are confused by all the natural options out there and feel overwhelmed just researching it
- They want more energy to do the things they love without the side effects of stimulents
- And they want to increase the overall quality of life for their family

We offer a full line of essential oil kits and products to support your family's health goals, whatever they are.

DoTERRA has really raised the bar in the essential oil industry. There are no fillers, no artificial ingredients, and no dilution. The plants used to make each oil are grown in their ideal environments all around the world and the oils go through five levels of 3rd party testing to ensure purity and potency. This means that when you see the doTERRA label, you can feel confident that you will see the highest health benefits.

They also work WITH local farmers to create a better economy (as the oils are often sourced in 3rd world areas). They create jobs and support the community to raise the standard of living (like creating running water in Haiti). *This doesn't matter to everyone – but it did matter to me when I was comparing options.*

doTERRA also has great customer service. If you don't like and return it within 30 days, you can get 100% product credit to try something else. or 90% returned to your card. So there's no risk to you!

What exactly are these oils?

I regularly teach online classes to share about the oils & these recorded versions are a great way to learn a bit more about them.

- The first is an overview: [Natural Solutions for Your Health with Essential Oils](#)
- The second is targeted for athletes & anyone active: [Natural Peak Performance for Athletes](#)

Ongoing Support for You!

One of the reasons that doTERRA sells through a distributor (like me) is that you will have questions. You are learning a different way to support the health of your family & I will be here to help you learn. When you enroll with me (or someone on my team), you'll have a global support network to tap into.

My goal is to help you learn how to make oils a simple part of your life – you are not left to figure it out on your own! And that starts with a welcome package of goodies when you create your wholesale customer account:

Ordering Options

There are two ways to order:

1. **Retail Order:** I don't recommend this option often, but if you want to dip your toe into essential oils and aren't ready for the discount, you can place a full-price retail order here: mydoterra.com/fitaspire (Click the **Shop** tab at the top of the page)
2. **Wholesale Customer Account:** This is the best value, because you get access to wholesale pricing for the next 12 months (25% discount on everything!). The first year membership is just \$35, or you can skip that fee when you choose a starter kit (below). *Renewal is available for \$25 and includes a free bottle of Peppermint oil.*

There is **NEVER** an obligation to order monthly or sell oils... absolutely no strings attached.

But if you are one of the 10% of people who DO want to share the oils & start a business – then I would be happy to talk [more about that opportunity](#) with you.

Starter Kits

Most people choose a starter kit, as it's the best value when getting started with oils. I've included a few popular kits below, but you can [browse all available US kits here](#). The most popular kit is the **Home Essential Kit**, as it gives you the top 10 oils and almost \$90 in savings vs buying the products individually. *Family Wellness is a close second, as it includes the top-selling supplements & the kid-friendly version of the top 8 oils.*

Need help choosing the starter kit that will be best for your goals? Email me & let's talk through your options: heather@fitaspire.com

Now that you created your wholesale account, you can login at any time and place future orders. You can do this using the One-Time Order option, or you may consider joining the Loyalty Rewards Program (which is how I order).

With the Loyalty Reward Program (or LRP), you earn points for every purchase – starting at 10% of your order. There is no minimum order amount & you can change your order at anytime. You can also earn a FREE product each month that you place a LRP order of 125th before the 15th of the month. *We can talk about this more on your welcome call, if you're interested.*

What's in my LRP order?

My personal LRP order always includes a few staples:

- 2 x Lifelong Vitality Pack – these are the daily supplements that Kirk & I take: a multivitamin, omega 3, and cellular vitality. I did a great deal of research before switching to these supplements and was extremely impressed.
- PB Assist+: Double-encapsulated probiotics. When you bundle these with LLV, the discounted price is only \$20 too!
- Verage Skin Care: Every few months, I restock with this anti-aging, natural skin care line. Smells & feels incredible.
